

Awareness, Information and Support about losses such as autism, adoption, divorce, other diagnosis and bereavement.

Open to all we offer a range of resources, a team of professionals and peer supporters to empower and offer support in breaking difficult news to others... especially children and young people.

We next meet on Wednesday
23rd June, 28th July, 25th August
and 22nd September 2010
from 7.00 pm to 8.45 pm
In the old Larkspur building
Lark Rise
Langley Green
Crawley
RH11 7QG

"We believe that Raising Awareness and Offering Information about Any Diagnosis, Loss or Bereavement under 'one umbrella' that is accessible to all, will create support for affected families"

We offer a variety of resources for children and young people about diagnosis, loss and bereavement from our Drop-In. However...

The Young Explorers Club is intended to offer children and young people the opportunity

- to meet others who may have been through similar experiences
- to reduce their feelings of isolation and
- increase their ability to reach their full potential in every day life.

We currently seek volunteers with a creative flair to help us make this happen for local children, young people and their carers.

All materials are provided and all we ask of you is approx. 4 days per year.

Our team already consists of 3 professionals and a peer supporter so relevant training is offered and support is in place.

Our next training workshop; *'Working with Bereaved Children'* is scheduled for October 2010. We seek anyone keen to become a UD volunteer and aid us in supporting bereaved children however, our workshop is also open to parents, teachers and others to encourage proactive support for families.
